todd@darkintel.info

Topics and Benefits:

Todd speaks regularly on technology crime and its investigation. His current topics include the Darkweb and its effects on crime. He speaks to law enforcement and businesses about understanding why they need to know how the Darkweb affects their industries. His audiences learn what technology crime is and how they can build their skills to investigate and stop this new crime. Todd tries to impart the latest in how technology is being misused and what we all can do to prevent it.

Brief Bio:

Todd is founder and CEO of Dark Intel, which specializes in the research and training of law enforcement and business about the Darkweb. He is a retired police Detective Sergeant, a frequent speaker at technology events and featured expert on various media. He is a regular speaker internationally on Cybercrime issues and an author. His most recent endeavor is as the coauthor of "Surviving a Cyberattack: Securing Social Media and Protecting Your Home" his last book was as co-author of "Surviving Cybercrime: "Investigating Internet Crime-An introduction to solving crimes in cyberspace". He was also featured in the documentary "Deep Web", by Alex Winter, as an expert in Internet investigations.
